- 16.4 Any person to whom a reference is made under Clause 16.3 shall act as expert and not as an arbitrator and his decision (which shall be given by the expert in writing and shall state the reasons for the decision) shall be final and binding on the parties except in the case of manifest error or fraud.
- 16.5 Each party shall provide such expert with such information and documentation as the expert may reasonably require for the purposes of forming his or her decision.
- 16.6 The costs of the expert shall be borne by the parties in such proportions as the expert may determine to be fair and reasonable in all circumstances or, if no determination is made by the expert, by the parties in equal proportions.
- 16.7 Subject to Clause 16.1, except where urgent interim measures are sought, and 16.4, nothing in this Clause 16 shall prevent either party commencing or continuing court proceedings in relation to the Dispute under Clause 15.

SCHEDULE Y: OPEN ACCESS WORKFLOW

- 1 Workflow: Eligible Corresponding Author identification
 - a) During the submission of the article, the submitting author is responsible for correctly identifying the institutional affiliation of all authors, to identify the corresponding author and to provide institutional email addresses. When entering an institutional affiliation, SAGE provides the author with suggested matches during this process. The author is responsible for selecting the appropriate match
 - b) Corresponding Author affiliation is checked for eligibility post acceptance as an article enters production. Changes to Corresponding Author affiliation are permitted post submission for valid academic reasons. It is not permitted to change the Corresponding Author of an article after peer review from an in-eligible author to one accredited to the Member to qualify as eligible.
 - c) In the event of no match being found, SAGE will attempt to identify an Eligible Corresponding Author using the corresponding author's email address domain.
 - c) If a match is made, upon the article entering SAGE's production system, SAGE will use this match to identify the article to the appropriate Member. The Member will be notified by email of the match, and is required to review the article within the Publisher online portal within 5 days. The offer of open access publishing will not be made to the Authors until this is complete. Production of the article may paused as a result, and publication of the article delayed. The Member will confirm if the corresponding author is an Eligible Corresponding Author and therefore that the Article is an Eligible Article. If a match is not made despite correctly provided identification by the author, SAGE will change the article to Open Access without charge after the Author has signed the OA agreement.
