In the event of a material change to the number and value of the journals included in the Database (a material change means a change of no less than 10 % in either number or value of the journals, excluding journals migrated to Gold Journals), the parties shall negotiate in good faith an appropriate amount as a fair compensation for such material change.
5. **Subscriptions to Journals not included in the Database:** The Members may subscribe to journals not included in the Database by placing orders directly via Wiley's Journal Customer Service Department at cs-journals@wiley.com or via a subscription agent. These subscriptions will not be covered by the terms of this Agreement.

SCHEDULE 5 – Publishing Privilege

1. General.

1. Wiley agrees to the open access publication of Eligible Articles in Hybrid and Gold Journals as requested by Eligible Authors through the agreed workflow outlined below. Eligible Authors publishing under this Agreement grant Wiley the right to publish their articles under a Creative Commons license subject to the provisions of their author agreement. Eligible Authors will be able to select the at least one of the following Creative Commons licenses: Attribution 4.0 International (CC-BY 4.0), Attribution Non-Commercial 4.0 International (CC-BY-NC 4.0), or the Creative Commons license Attribution Non-Commercial Non-Derivative 4.0 International (CC-BY-NC-ND 4.0) for the publishing of their articles.
2. The Publishing Privilege will commence for articles accepted from **January 1, 2021** and end for articles accepted on **December 31, 2024**.
3. 1. Eligible Articles Published between January 1, 2021 and March 15, 2021, will be made open access where possible, with APC charged from the Publishing Privilege Fund as a one-off accommodation. Wiley will use best efforts to make all Eligible Articles published between January 1 – March 15, 2021, open access and failure to do so will not constitute a breach of the Agreement. Under the standard hybrid publication workflow, if the Eligible Author has identified his/her affiliation with a Member by selecting from a standardized list of institutions in the electronic editorial office submission and Author Services systems, the Eligible Author will be presented with a choice of publishing options. The authors may elect not to publish open access. Wiley will include sufficient information and guidance for Eligible Authors that Eligible Articles are meant to be published open access as part of this Agreement (so long as the correct affiliation of the Eligible Author is captured in Wiley system metadata) and that they do not need to pay a fee for open access publication of their articles. For any current journals that follow a non-standard hybrid publication workflow, the Eligible Author of any Eligible Articles who has identified his/her affiliation with a Member in the electronic editorial office submission system will also be presented with a choice of publishing options and Wiley will make reasonable efforts to inform the Eligible Author that the

articles are meant to be published open access as part of this Agreement.

4. Under the gold open access publication workflow, the Eligible Author or the person submitting the manuscript in the editorial office submission system will be asked to answer a publication charge question and the submitting person selects the affiliation of the Eligible Author from a standardized list of institutions in order to request that the APC is covered under this Agreement.
 5. The Member has the right to deny funding requests for articles to be published under this Agreement if the Eligible Author is not affiliated to a Member.
2. Wiley's Obligations.
1. In consideration of the payments listed in Schedule 1 as Publishing Privilege Fee and subject to the terms and conditions of the Agreement, Wiley will:
 1. not charge an Eligible Author an APC for any Eligible Article submitted by such Eligible Author that is accepted for publication in a Hybrid or a Gold Journal, provided the Eligible Author submits said material according to Wiley's WOAA workflow and reasonable funds remain in the Member's WOAA to cover the APC. If an Eligible Author requests Wiley to change the publication basis (i.e. make their article open access when they originally opted not to make their article open access) of their submission prior to publication, Wiley will do so; changes cannot be made post-publication. Any APC incurred outside the WOAA workflow is not covered by this Agreement.
 2. include the Member in Institutional Account List for all Hybrid and Gold Journals as an institutional account holder;
 3. provide a link for the Member on the Author Services web site;
 4. identify on Wiley Online Library the articles that are available on an open access basis in the Hybrid or Gold Journals;
 5. make reasonable efforts to align Wiley's workflows to ESAC recommendations where possible;

6. Wiley will use best efforts to add in article and metadata the phrase “Open access funding provided by IReL”. Failure to do so will not constitute a breach of the Agreement.

7. provide quarterly reports to the Maynooth University within one month of the end of each quarter that includes a breakout of all Eligible Articles including articles where the author has not elected for open access (provided that the author identified themselves as affiliated with a Member and then opted out from publishing the relevant article open access), and those made open access and approved by the Members pursuant to the verification process detailed below. The reports will be in a machine-readable format of all articles from authors affiliated with the Member published in Wiley’s Hybrid and Gold Journals, indicating the journal type. The reports will include one or more of the following fields:

- Name and email address of the Eligible Author
- Eligible Author’s affiliation(s)
- Date of acceptance
- Online publication date
- Journal Title
- Article title
- Article type
- DOI and a link to the published article
- license type
- Funding organization (research funder when available)
- APC cost and date of approval in Dashboard (when applicable).

Not all of these fields are available for every article. Wiley will include the available fields.

3. Verification process.

1. Eligible Authors will be identified through at least one of the following parameters: their organization name; their e-mail domain persistent identifier, such as Ringgold or another recognized institutional identifier.
2. The Member will review the pending request, verify if the author is affiliated with the respective Member , and approve or deny their article within their Wiley Open Access Account Dashboard (“WOAD”). The Member has the right to leave Gold OA requests in "pending" until

production status has been moved to accepted. The article record in the dashboard will include all necessary metadata including, but not limited to, name and email address of the author, full name of author's affiliation (e.g., university), acceptance date, journal title, article DOI (if applicable), article title, article type, amount of the APC. The Members will ensure requests from Wiley to validate Eligible Authors are answered promptly.

4. Editorial Independence. Nothing herein will oblige Wiley to publish any article submitted to Wiley by an Eligible Author. The Members acknowledge that the selection of material to be published in the Hybrid and Gold Journals is entirely at the discretion of Wiley/the editors of the Hybrid and Gold Journals and the Members waive any claim it may have against Wiley in the event that Wiley or its editors refuse or decline to publish any material (or part thereof) submitted by an Eligible Author. An article will be considered to be selected for publication once the Eligible Author has been notified that the article has been accepted and Wiley has received the applicable publishing agreement for the Hybrid or Gold Journal signed by the right holder(s) of the article.
5. Terms of Publication. The Members acknowledge that before the version of record is published, the Eligible Author and (if different) the owner of any copyright in such material will be required to agree to the applicable terms and conditions of publication (including without limitation the terms relating to open access).
6. Fees.
 1. The annual payment of the Publishing Privilege fee will fund the WOAA balance administered by the Members.
 2. The APC levied by Wiley for open access publishing in Hybrid and Gold Journals during the Term will be at Wiley article publication charge list price for the journal, which Wiley has discounted for the benefit of the Members by 10%.
 3. APCs due for each Eligible Article are deducted from the total annual Publishing Privilege Fee on a first come - first-served principle until such time as the total Publishing Privilege Fee value in the current year has been reached.
 4. In the event that the balance is nil before the end of a given year, and unless the Member deposits additional fees to the WOAA, Eligible Authors of subsequent articles accepted for publication in the same year who wish their articles to be published open access may be

charged an APC. Subject to the workflows set forth in paragraph 1.3. and 1.4. of this Schedule and the successful verification of the Eligible Author that they are a member of a Member within Wiley workflows, APC charges for Hybrid or Gold Journal publications will be at APC list price for the journal with an agreed discount of 10% applied to that list price.
