WHAT IS THE MICROCREDS PROJECT?

- MicroCreds is a 5-year project led by the Irish Universities Association and is part of the National Framework for quality assured and accredited micro-credentials.
- The project was launched on 12th July 2023 by the Minister for Further and Higher Education, Research, Innovation and Science Simon Harris and Minister for Enterprise, Trade and Employment Simon Coveney.
- The project aim is to address the barriers to participation in lifelong learning, including time constraints for learners and inflexibility in current programme provision and delivery. The flexibility in micro-credentials means that learners can access learning in discrete small units, at a time and pace which allows greater balance with both life and work commitments.

MICRO CREDS

WHAT ARE MICROCREDS?

- Microcredentials are bite-sized accredited courses to upskill, reskill, or develop a new skill.
- Microcredentials are offered online, face-to-face, or as blended learning, in short flexible courses, designed to work around existing commitments.
- Microcredentials can be taken as stand-alone courses, or stacked into larger qualifications over time.
- Microcredentials are currently offered by Dublin City University, Maynooth University, Trinity College Dublin, University College Cork, University of Galway, University College Dublin and University of Limerick.

WHAT IS ORCID?

- ORCID IDs are free unique persistent identifiers to distinguish researchers (defined in the broadest sense of the word), to help them claim credit for their activities – and to disambiguate if they have the same (or similar) name to others, or if they change name throughout their career, or if they have used different versions of their name throughout their career.
- As DOIs are persistent identifiers for research outputs, ORCID IDs are persistent identifiers for individuals.
- ORCID IDs look like this: <https://orcid.org/0000-0001-5727-2427>
- ORCID IDs are accompanied by ORCID records (metadata records) which give the alphanumeric string meaning, and include details on name, education, employment, qualifications, research outputs, funding received and professional activities.
- ORCID IDs are researcher centric: only the researcher themselves can set up an ORCID ID, the researcher sets the privacy settings of the ORCID record, and the researcher decides which other entities (“trusted parties”) can contribute data to their ORCID record.

WHAT IS ORCID?

- ORCID is an open infrastructure, community governed, and supported by membership fees.
- ORCID records with visibility settings of “Everyone” are public open metadata which can be publicly viewed in the ORCID UI (www.orcid.org), and integrated and queried using APIs with any type of system.
- ORCID, Crossref, DataCite and UnPaywall are examples of scholarly open metadata which enable large-scale data analysis. Therefore, writing to ORCID records enables reporting and increases public visibility of uptake of your organisation’s courses.
- Your organisation taking responsibility for writing activity relating to your organisation to ORCID records ensures the data is correct, verified, and trustworthy when being used by other parties.
- The Irish ORCID Consortium is an outcome of Ireland’s National Open Research Forum and was established to support adoption of ORCID in Ireland. It is focused on developing and supporting system integrations, and the writing of authoritative metadata to ORCID records by RPOs, RFOs and publishers.

- No technical support required.
- Access in the web browser
- Very easy to use

THE ORCID AFFILIATION MANAGER: INTRODUCTION

<https://member-portal.orcid.org/>

Available to premium/consortium ORCID members only

- List of current Irish ORCID Consortium Members: <https://irel.ie/orcid-consortium/>
- To enquire about joining the Irish ORCID Consortium, contact catherine.ferris@mu.ie
- To enquire about becoming a consortium member in another country, or a premium member, contact support@orcid.org
- ORCID membership fees are listed here: <https://info.orcid.org/membership/>

For existing consortium members:

- Each consortium member has a Main Administrative Contact, who is responsible for that organisation's compliance with the ORCID membership agreement. Also, many member organisations have existing, or in development, organisation-wide ORCID strategies. At your organisation, approval and access to use the ORCID Affiliation Manager for the purpose of MicroCreds/qualifications/CPD will need to be sought from that Main Administrative Contact. If you don't know who that is at your organisation, please contact catherine.ferris@mu.ie (for Ireland) or support@orcid.org (everywhere else).

THE ORCID AFFILIATION MANAGER: CONSIDERATIONS BEFORE USING

<https://member-portal.orcid.org/>

- Identify who at your organisation will use the ORCID Affiliation Manager (different staff for different courses? One admin for all courses?)
- Affiliations written to ORCID records must be based on internal authoritative sources. Identify what that means at your organisation (course records?)
- Do the administrators who will use the ORCID Affiliation Manager have access to those sources?
- If not, establish inter-departmental commitments and workflows to obtain internal authoritative source in an ongoing, sustainable way
- Although the facility is open to you to write qualification records for in-progress courses, consider only writing the qualification record when the course is completed. Writing on completion means it's a one-time action for the administrator and removes the requirement to maintain/update the ORCID record. This advice does not apply to all affiliations written through the ORCID Affiliation Manager, but makes sense for short courses.
- Identify how often ORCID will be updated (i.e. will you support real-time reporting, on course completion?) + inform the Irish ORCID Consortium Lead (Ireland) or ORCID Support (everywhere else)
- NB: the ORCID Affiliation Manager is part of the ORCID Member Portal – all users with access for reporting at your organisation will have access to the Affiliation Manager (and vice versa)
- All users at your organisation will be able to add/view/edit all affiliations listed on your organisation's Affiliation Manager (this is not a dashboard/per/user, but a dashboard/per/org).

Department's timeline for updating records

For the Department's use of the ORCID Affiliation Manager, the Organisation's Main Administrative Contact commits to:

- Provide a copy of Irish ORCID Consortium Agreement to the Department
- Inform Department of any changes to Irish ORCID Consortium Agreement
- Define the above Authorised Scope of Use of the ORCID Affiliation Manager by Department
- Provide access for the Department Administrator(s) to the ORCID Affiliation Manager
- Update Department Administrator access to the ORCID Affiliation Manager, as required
- Provide Department Administrator(s) with training documentation for the ORCID Affiliation Manager
- Provide Department Administrator(s) with instructions for joining the Irish ORCID Consortium Community Forum, to receive updates on ORCID Affiliation Manager functionality
- Initiate direct support by Irish ORCID Consortium Lead for Department Administrator(s)
- Update the Irish ORCID Consortium Community of Practice Contacts spreadsheet with details of the Department's use of the Affiliation Manager.

For the Department's use of the ORCID Affiliation Manager, the Department commits to:

- Comply with the Irish ORCID Consortium Agreement
- Follow ORCID's [documented procedures](#) for use of the ORCID Affiliation Manager
- Assign and resource Department Administrator(s) on a continued basis to support the Department's use of the ORCID Affiliation Manager
- Inform the Organisation's Main Administrative Contact of any changes of Department Administrator(s).
- Only write affiliations within the Authorised Scope of Use of the ORCID Affiliation Manager by Department, and obtain prior approval from the Main Administrative Contact if an updated Authorised Scope is required
- Ensure that any changes to affiliations are updated (as per Department's Timeline for Updating Records above)
 - o Ensure that affiliations are updated with end dates when the affiliation ceases (as per Department's Timeline for Updating Records above)
- Continue to write new affiliations (within the Authorised Scope of Use and as per the Department's Timeline for Updating Records above), to ensure that ORCID records reflect the Organisation's affiliations as comprehensively as possible
- Only write affiliations using the Organisation's ROR, acknowledging that the highest-level organisation PID is to be used and not a department-level PID
- Only write affiliations for which the Organisation is the single authoritative source, acknowledging that affiliations are only to be written to the Organisation, and not to other organisations
- Only write affiliations that contain start dates.
- Only write affiliations validated by internal authoritative source data
- Ensure that internal workflows are in place to notify the Department Administrator(s) of changes to the internal authoritative source data and provide access to updated data
- Ensure that copies of relevant internal authoritative source data are maintained, to enable current and future Department Administrators and Main Administrative Contacts to manage and validate affiliation records written to ORCID
- Stay informed of developments and/or changes in functionality to the ORCID Affiliation Manager which may impact the Department's usage of the system.

Both parties agree to promptly notify the other party in writing when the contact persons specified above change. Such notifications will be considered jointly accepted amendments to this Agreement.

Affiliation Manager Email Guide

As described in the [Member portal organization admin guide](#), before you can add affiliation data to your researcher's ORCID records, your researchers first need to grant your organization permission to edit their record by clicking a customized link generated by the member portal.

Although the member portal generates permission links, your organization must email them to your researchers. Sending these emails from your organization's email domain (ideally) using your organization's branding provides advantages including:

- Increased likelihood that emails will be successfully delivered and opened
- Decreased likelihood that researchers will view emails as potential spam or phishing attempts
- Ability to fully customize the message and design according to your organization's needs and policies

Permission email content guidelines

Required

- Brief explanation of the purpose of the message
- Permission link generated by the member portal, customized for each researcher (as identified by email address in the [CSV downloaded from the member portal](#))
- Steps needed to grant permission
- Brief explanation of what will happen after granting permission
- Point of contact within your organization for help or questions about your ORCID
- Link to additional information about ORCID
- Privacy policy statement/link explaining that your organization's privacy policy applies to affiliation data uploaded to the member portal. [ORCID's privacy policy](#) applies to data only after it is added to the ORCID Registry. In the case of

Hi

By allowing Irish Research eLibrary to add your research information to your ORCID record, you can spend more time conducting your research and less time managing it! We'll need your permission first though, so click on the link below to get started. You will get redirected to ORCID, after signing in, click on "authorize access" to allow Irish Research eLibrary to add information to your record.

[Grant Permission](#)

After granting permission, an affiliation entry will be added to your ORCID record. Please note that it may take up to 5 minutes for your ORCID record to be updated.

Why should I allow Irish Research eLibrary to update my ORCID record?

- When data in your ORCID record has been added by an organization you trust, you can be assured that it can be reused with a high degree of confidence in a number of different workflows, for example, when automatically filling out a growing number of manuscript submission or grant application forms.

What else should I know?

- Although Irish Research eLibrary will only add affiliation information to your ORCID record at this time, the permission you grant us now will allow us to add other information to your ORCID record (such as publications) in the future. We will notify you if we plan to do this.
- Researcher control is central to everything ORCID does. If you no longer want Irish Research eLibrary to edit your ORCID record, you can revoke permission at any time. See [Revoking Permission](#) for instructions.
- Affiliation information added to your ORCID record is subject to [ORCID's Privacy Policy](#). Per this policy, [you can control the visibility of this information in ORCID](#). The source data, however, is controlled by Irish Research eLibrary and is subject to their own privacy policy.

Visibility settings

Your ORCID iD connects with your ORCID record that can contain links to your research activities, affiliations, awards, other versions of your name, and more. You control this content and who can see it.

By default, what visibility should be given to new items added to your ORCID Record?

-  **Everyone** (87% of users choose this)
-  **Trusted Organizations** (5% of users choose this)
-  **Only me** (8% of users choose this)

The screenshot shows the ORCID Member Portal interface for Irish Research eLibrary. The page title is "Affiliations". A navigation bar at the top includes "Tools", "Resources", "Admin", and "Account" menus. Below the title, there is a row of action buttons: "+ Add affiliation", "Import affiliations from CSV", "Request affiliations for edit", "Request affiliation status report", "Request permission links", and "Send permission notifications". A search bar is located below these buttons. The main content area is a table with the following columns: "User Email", "ORCID ID", "Affiliation Data", "Date created", "Status", and "Actions". The table contains one row of data for a user with email "01testiadt@mailinator.com" and ORCID ID "https://sandbox.orcid.org/0009-0001-6066-6627". The affiliation data is "EDUCATION Dún Laoghaire Institute of Art, Design and Technology: Dún Laoghaire, Dublin, IE" with a creation date of "May 23, 2023, 1:49:31 PM" and status "In ORCID". The "Actions" column for this row contains "Edit" and "Delete" buttons. Two orange arrows are overlaid on the image: one pointing to the "+ Add affiliation" button and another pointing to the "Edit" button.

This is for batch editing (download csv, edit, upload).

While it is possible to add qualification records for courses in progress, we recommend in these circumstances for MicroCreds/CPDs, that records are added on course completion, so no updates to the records need to be made .

THE ORCID AFFILIATION MANAGER: IMPORTANT

Members do not have access to a test environment on the ORCID Affiliation Manager - all actions taken through the ORCID Affiliation Manager are to the live ORCID production environment.

Consortium Leads have access to a test environment. Consortium Members: contact your Consortium Lead for a walk-through.

Affiliations must contain start/end dates. Affiliations without start/end dates will always appear as “current affiliations” in ORCID reporting.

If you have any questions or need any help implementing the ORCID Affiliation Manager, please contact me Catherine.ferris@mu.ie (Ireland) or support@orcid.org (everywhere else).
