SCHEDULE 5: OPEN ACCESS WORKFLOW

1 Workflow: Eligible Corresponding Author identification

- a) During the submission of the article, the submitting author is responsible for correctly identifying the institutional affiliation of all authors, to identify the corresponding author and to provide institutional email addresses. When entering an institutional affiliation, Sage provides the author with suggested matches during this process. The author is responsible for selecting the appropriate match
- b) Corresponding Author affiliation is checked for eligibility post acceptance as an article enters production. Changes to Corresponding Author affiliation are permitted post submission for valid academic reasons. It is not permitted to change the Corresponding Author of an article after peer review from an in-eligible author to one accredited to the Member to qualify as eligible.
- c) In the event of no match being found, Sage will attempt to identify an Eligible Corresponding Author using the corresponding author's email address domain.
- c) If a match is made, upon the article entering Sage's production system, Sage will use this match to identify the article to the appropriate Member. The Member will be notified by email of the match, and is required to review the article within the Publisher online portal within 5 days. The offer of open access publishing will not be made to the Authors until this is complete. Production of the article may be paused as a result, and publication of the article delayed. The Member will confirm if the corresponding author is an Eligible Corresponding Author and therefore that the Article is an Eligible Article. If a match is not made despite correctly provided identification by the author, Sage will, upon becoming aware, manually match the article and identify the article to the appropriate Member. If this occurs after article proofs have been sent, there will be no charge as detailed in section 2 i) below.

- (c) Transacting author confirms their identity and the copyright ownership status of the Eligible Article (Hybrid).

- (d) Transacting author selects the appropriate Creative Commons license under which their Eligible Article (Hybrid) will be published. The transacting author will be offered a choice of CC BY 4.0 and CC BY-NC 4.0 license unless Sage is aware of a funder mandate that applies. If a funder mandate applies, only compliant license types with that mandate will be offered. Sage's open access portal will provide explanatory text alerting author to why license(s) is displayed. Author may contact Sage OA customer service if is another license is required.
- (e) Transacting author digitally signs the Open Access license.
- (f) If the Transacting author rejects Open Access publishing of the Eligible Article, the Eligible Article will be published in a traditional subscription only format, not as Open Access.

- (h) If the transacting author does not digitally sign the Open Access license (e – above) within 14 days, the Eligible Article will be published in a traditional subscription only format, not as Open Access.
- (i) Eligible Corresponding Authors who have rejected Open Access publication of their Eligible Article (Hybrid) or who have not signed the Open Access license after 14 days may contact Sage's open access customer service team to request the offer be resent at any time before article proofs have been issued. Once article proofs have been issued, the Eligible Corresponding Author may request conversion to Open Access from Sage's open access customer service team and Sage shall convert the Eligible Article (Hybrid) to an Open Access format, upon payment of a fee of £400 by the transacting author or their nominated bill-payer and upon the transacting author signing the Open Access license.

If a higher discount is available to the Author, the higher discount will be applied instead.
